

NDRLHPA rear-loading, open dairy roll-in merchandisers are designed to provide shopping ease from the front of the case and stocking ease from the rear. By allowing easy open access from the cold room, dairy racks are easily pre-stocked and rolled into place.

High Performance TC Coil™

High Performance (HP) Merchandisers feature our patented TC Coil™ design, which represents a major technology breakthrough for the commercial refrigeration industry. Developed jointly by Carrier Corporation and Tyler, the TC Coil™ enables HP merchandisers to operate more efficiently, providing energy savings that allow faster payback periods for food retailers.

Note: For more information about Tyler high performance display merchandisers featuring TC Coil™, go to the Technologies section of this catalog on page 8.

Features & Benefits

- Energy-efficient copper tube and aluminum fin coils.
- Double row of energy-efficient T8 canopy lights and single row of T8 top lights.
- Hinged light channel allows easy access to ballasts.
- Off-cycle defrost.

Options

- 20" or 22" deep unlighted shelves.
- 3 or 6 position shelf brackets for varied shelf display angles.
- Base shelves.

Specifications are subject to engineering changes without notice.

Model	Case Length	Description	Capacity in Cubic Feet*
NDRLHPA	8' • 12'	Rear Load Roll-In w/ Shelving, TC Coil	63.3 • 95.0
NDRLHPA	8' • 12'	Rear Load Roll-In w/ Roll-In Carts, TC Coil	83.3 • 125.0

* Cubic capacity is based on four rows of 22" shelves or maximum area available for rack.
